

THE TOASTER FOR BURGERS THAT DESERVE BETTER

Stop hiding your burger between untoasted buns. Use the **Vertical Contact Toaster** to serve burgers on perfectly toasted brown buns that stay firm and do not soak up the juices of your ingredients. So all the flavors of your burger only combine with each mouth-watering bite.

To learn about our complete line of Vertical Contact Toasters, call 1-800-253-2991 or visit us at www.ajantunes.com.

Roundup

by A.J. Antunes & Co.®

Roundup offers a complete line of **Vertical Contact Toasters** to meet the needs of your growing business. Each one of our reliable toasters features stainless steel construction, a dual-sided platen, space-saving vertical design, separate height adjustments for the heel and crown, and a temperature controller for precision toasting. Optional features include:

- 10 to 50 Second Pass-Through Time
- Mechanical Butter Wheel
- Tall or Wide-Mouth Bun Feeder
- Bun Chute
- Heated Base
- Heating Bun Landing Zone (Accessory)
